Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Juliets of W. M. College

A program appealing especially to people able to appreciate culture and training was rendered last Friday evening in the chapel by the Julietts of Will Mayfield College. The development of timid and untrained girls into accomplished young women is one of the services Will Mayfield College is rendering to the world. Every parent should be truly thankful to God for the first conception of the great need of a Christian school in southeast Missouri located at Marble Hill--a school where boys and girls are enabled to develop into symmetrical and well rounded men and women, taught in the things both of the mind and soul.
The title "Southern Scenes" is suggestive of the general trend of the program. Southern quotations, "Southern Literature After the War", and other literary articles, humorous readings, a wonderful romance, beautiful old southern melodies and an excellent play were some of the good things of the program. The "Juliet Flower", which was the last except the closing song, was very interesting and will be particularly remembered by the Antonians.
If you are interested in good, wholesome entertainment do not fail to hear every program rendered by the Julietts and Antonians of the Will Mayfield College. You are not likely to be disappointed.

Angus Sale and Banquet

J. D. Blackwell, of Fayette, Missouri, secretary of the Missouri Aberdeen-Angus Breeders' association, takes this means of announcing a sale, banquet and meeting to take place at the Ducker House, the leading hotel of the city, on Monday night, April 1st, and the sale on the following day, April 2nd.
The Commercial Club of Poplar Bluff has arranged to entertain the visitors with automobile trips to see some of the leading Angus herds of southeast Missouri, and to show them the advantage of raising good cattle; also what the cross of a good bull will do on native cows; and the agricultural advantages in that part of Missouri.
The cattle listed in this sale come from some of the leading breeders of Missouri, including some from your own district. These cattle represent some of the best families, and are individuals of plenty of bone and size. This is a great opportunity for buyers to obtain some good useful females who are tried breeders with calves at foot, and others due to calve this spring and summer to herd bulls of national reputation. Some of the bulls listed in this sale are good enough to be herd headers, and all of them are useful and strong enough for immediate service.
Breeders and farmers who are contemplating the founding of a herd, or who need a good bull to cross on his cows, should by all means arrange to attend this sale and secure some of these honest, thrifty cattle.
For catalogs of the sale or any information regarding the meeting or banquet, address
ERNEST BACON, President, Poplar Bluff, Mo.
J. D. BLACKWELL, Secretary, Fayette, Mo.

THRIFT IS ..PREPAREDNESS..

Financial strength is to nations as important as military strength. No nation can survive a war if it cannot finance itself.

The man who fortified himself with an account in a savings bank does more than prepare himself--he contributes to the preparedness of the country.

Germany, unable to borrow from other countries, has been financed by the thrift of her people, as this thrift was expressed in accounts in savings banks.

A savings bank deposit helps the nation and is indispensable to the individual.
